

# Brannan Instruction Sheet

## Large Display Digital Timer (28/203/0)

### Countdown Timer

1. Press "MIN" and "SEC" to set desired timing period.
2. Hold down the "MIN" and "SEC" buttons for 3 seconds to quickly advance time.
3. When timing period is set on the display, press "START/STOP" button to begin timer.
4. When zero is reached, press "START/STOP" to stop alarm. If the alarm is not stopped, it will sound for 60 seconds then start to count up.
5. The timer can be stopped at any time during countdown by pressing "START/STOP". Restart the countdown by pressing "START/STOP" a second time.
6. To clear the timer back to zero, press "MIN" and "SEC" buttons at the same time.

### Memory Function

After the required time has lapsed, press "START/STOP", to show the last countdown period. Clear timer and set new time if memory time period is not required.

### Count-Up Timer

1. Press "MIN" and "SEC" to reset display. Press "START/STOP" to start count-up.
2. The timer can be temporarily stopped by pressing "START/STOP". Restart by pressing "START/STOP" again.

### Battery Installation

1. Remove battery cover on back of timer and insert 1 x AAA battery, matching "+" and "-" polarities.
2. Replace cover then press "MIN" and "SEC" buttons together to clear timer.

Battery Warning - Remove battery if timer will not be used for an extended period  
Keep battery away from children.

### Care of your Product

1. Avoid exposing timer to extreme temperature, water or severe shock.
2. Avoid contact with any corrosive materials such as alcohol or cleaning agents.

Please dispose of electrical devices in accordance with local regulation
