## DIGITAL FRIDGE OR FREEZER THERMOMETER

A digital thermometer to show room temperature and the temperature of fridge or freezer. The alarm sounds and the LEDs lights flash for 5 seconds every minute if the temperature goes outside the safety zone.

### Product features:

- High accuracy and fast response time
- Displays fridge or freezer temperature and room temperature simultaneously
- Alarm sounds and LEDs flash if fridge or freezer temperature falls outside safe zones for food
- Large LCD
- 1m cable and suction cup for external measurement
- Adhesive pad for fixture to appliance
- Supplied with battery and full instructions
- Available pre-calibrated as part of **Brannan THERMcert™** range\*

### Product specifications:

|                                  |                                                                      |
|----------------------------------|----------------------------------------------------------------------|
| <b>Temperature range:</b>        | -40 to +70°C&F (switchable)                                          |
| <b>Resolution:</b>               | 0.1°C                                                                |
| <b>Accuracy:</b>                 | +1°C between 0 and +40°C,<br>otherwise +/2°C                         |
| <b>Battery:</b>                  | 1pc x AAA (supplied)                                                 |
| <b>CE/ROHS/WEEE:</b>             | Compliant                                                            |
