NON-CONTACT, AUTOMATIC, INFRARED TEMPERATURE SCANNER

Automatic temperature scanner specifically designed to assist in current battle against COVID-19 and other infections. The thermometer can be wall mounted or positioned on a tripod, situated in a position where a high number of people are entering a premises and capable of taking multiple temperature readings within a short period of time.

Ideally suited for the entrance to schools, office buildings, retail shops, gyms, etc, and eliminates the need for a member of staff to approach visitors.

Please note: *This is not a medical device and should not be used for diagnostic purposes. We recommend the use of a medical body thermometer to confirm high temperature readings.*

Product features:

- Automatic temperature measurement
- Easy and safe
- Energy saving
- Large, high definition LCD
- Connects to PC for remote reading and measurement storage
- Supplied with USB cable and standard UK 3-pin plug
- Tripod stand available*
- High accuracy and fast response time
- Long measuring distance
- High temperature alarm
- Hanging hook or adhesive fixture
