LO-tox GLASS POCKET TEST THERMOMETERS - HEAVY DUTY ALUMINIUM CASE THERMOMETERS

Glass thermometers are the most popular and economical instrument for test purposes. Since mercury is no longer permitted under EU Regulations, these test thermometers are now filled with the **Brannan** blue coloured alternative, **LO-tox** filling which combines high legibility and accuracy with low levels of hazard.

The test thermometers are available in three different temperature ranges and in Celsius only or dual scales. They are calibrated for total immersion. This pocket test thermometer has an aluminium case for protection. The body of the case is removed for use, retaining the tube in the cap.

These thermometers can be supplied with certificate traceable to recognised national standard or statement of conformity, if required.

Product features:

- Choice of Celsius or Fahrenheit scales
- Unique **LO-tox** filling
- Heavy duty, aluminium pocket
- Made in UK

Product specifications:

Product material:	Case: Aluminium Glass tube: LO-tox filled
Temperature range:	See table
Divisions:	See table
Component weights:	Case: 15g Glass: 11g
Product weight:	26g
Product dimensions:	165mm x 12mm diameter

Range	Divisions	Product no
-30 to +50°C	1°C	22/848/2
-30 to +50°C&F	1°C/2°F	22/848/3
0 to +50°C	0.5°C	22/885/2
0 to +50°C&F	0.5°C/1°F	22/885/3
-10 to +110°C	1°C	17/848/2
-5 to +105°C&F	1°C/2°F	17/848/3
