

Premium remote reading dial thermometer

Product features:

- Weatherproof capillary thermometer with stainless steel case
- Back flange for surface mounting
- · High quality liquid expansion measuring system
- · Choice of dial diameters
- Supplied complete with stainless steel pocket or sliding union
- · Wide choice of temperature ranges and capillary lengths
- · For outdoor and high humidity installations
- · Wide range of associated accessories available
- Brannan quality and accuracy

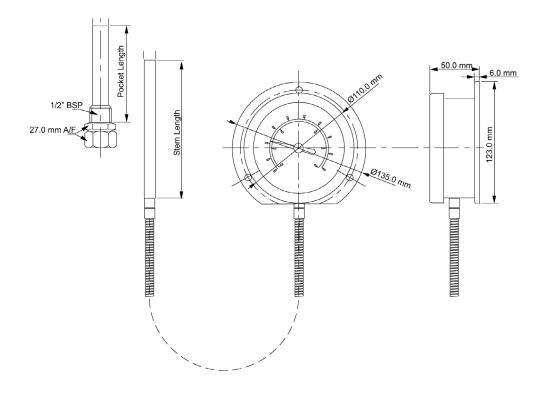

Standard product specifications:

	XT045
Standards & categories	
Design	BS EN 13190
Dial construction	
Case	304 Stainless steel
Bezel and back flange	304 Stainless steel
Seal material	74 shore D polyurethane
Connection orientation	Bottom connection
Pointer	Black plastic
Sensor mechanism	Liquid expansion (Kerosene filling)
Window	Glass
Capillary lengths	1.5m, 3m & 5m
Capillary material	stainless interlocking (plastic coated bronze also available for temperature ranges up to 120°C)
Stem lengths	140mm, 200mm & 250mm
Pocket lengths	63mm, 100mm & 150mm
Ranges & parameters	
Dial diameter	100mm (4") & 150mm (6")
Ranges	-40 to 40°C and -40 to 104°F through to 0 to 250°C and 0 to 480°F
Thread size	1/2" BSP
Accuracy class	2
Filling	Dry
Protection	IP 67
Operating temperature	0 to +40°C (higher or lower temperatures can cause indication errors)
Storage temperature	-40 to +60°C
Optional extras	
Calibration	Certificate traceable to recognised national standard or statement of conformity if required
Accessories	Pockets, self sealing test plugs

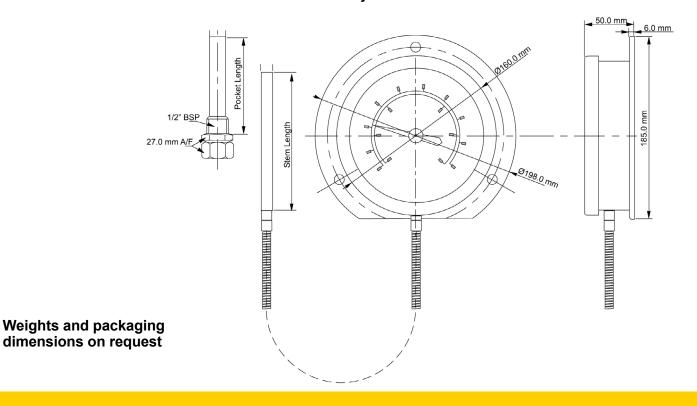

Premium remote reading dial thermometer

Dimensions: 100mm Dial thermometer - bottom entry

150mm Dial thermometer - bottom entry

Premium remote reading dial thermometer

Standard product numbers:

The following are our standard product numbers for dial thermometers supplied complete with pocket or sliding union (no pocket). Special products can be supplied on request, for example, customer own branding, alternative pocket length, range, etc. Minimum order quantities apply. Please contact our Sales Team for further information.

Premium remote reading dial thermometer

APK010 - REPLACEMENT POCKETS FOR THERMOMETERS

Use of Thermometer Pockets

Standard pockets, nominal length up to and including 100mm, are suitable for working pressure up to 40 bar. Pockets exceeding 100mm nominal length will normally be fabricated and are only suitable for working pressure of up to 25 bar. Thermometers are normally supplied complete with pockets and should not be installed on a pressurised system without suitable pocket.

Product features

- · Available in brass or stainless steel
- To suit stem lengths 50mm, 100mm or 150mm

Applications

- · Heating, ventilation, air-conditioning
- · Hot water
- · Industrial

Personalised instrumentation

As an additional service, we are able to offer full, four colour, logo print on Brannan gauges to personalise your products. Our state of the art printing process enables us to work with you to provide a branded product to enhance your instruments. This service is provided at our UK manufacturing facility and so enables a rapid turnaround (ex-stock gauges). Please contact our sales team for details.
