LAB025 - *breaksafe*^T PVC COATED LABORATORY THERMOMETERS

The Brannan *breaksafe* range of laboratory thermometers are offered in PVC coating to contain any glass or filling material in the event of breakage. The Brannan *breaksafe* PVC coated range of laboratory thermometers offers a low cost alternative to the Fluoro Ethylene Polyene (FEP) coated thermometers whilst still offering a high level of thermometer protection.

All *breaksafe* thermometers are supplied with Brannan's unique **LO-tox** filling and can be supplied with UKAS calibration certificate or statement of conformity on request.

Product features:

- Choice of temperature ranges and thermometer lengths
- Unique coating offering high level of thermometer protection
- 76mm partial or total immersion
- Safe, non mercury filling
- Supplied in individual, resealable plastic tube
- Made in England

Product specifications:

Temperature ranges:	See table overleaf
Divisions:	1.0°C or 0.5°C
Accuracy:	See table
Immersion:	76mm partial or total immersion
Product material:	Glass tube (see table for filling) PVC coating (approx 1g per 10mm thermometer length)
Product dimensions:	ø8mm x length (see table overleaf)
Product net weights:	155mm length tube: 12g 305mm length tube: 24g 405mm length tube: 34g
CE/RoHS/WEEE:	N/A
Hazard Information (SDS):	See brannan.co.uk for information

The photograph shows a broken laboratory thermometer with glass and spirit held safely within the *breaksafe* sleeve.
