PH METER WITH CABLED PROBE

The Brannan pH meter measures how much lime (acidity) there is in your soil, to help determine which plants are likely to thrive and which plants to avoid or how to go about supplying the special growing conditions they need.

Includes a plant care booklet listing over 400 pH levels.

Product features:

- Instant pH measurement
- Ideal for horticultural and all soil studies in the field
- Strong plastic case
- Simple operation
- No batteries required
- Operating instructions included

Product specifications:

pH range:	3.5 (acid) to 9 (alkaline)
Accuracy:	See note overleaf
Product dimensions:	Display: 28mm x 50mm
	Meter: 100mm x 68mm x 28mm
	Gross: 220mm x 112mm x 52mm
Product weight:	Meter: 84.5g
	Paper: 44.5g (box & instructions)
	Gross: 129g

Accuracy:

This meter is designed for amateur garden use and is ideal to give a guide to soil conditions. The accuracy of the reading is dependant on the method of use and it is therefore important that the instructions are followed carefully.

Please also note, soil conditions can vary considerably over relatively small areas, so multiple readings should be taken to get the best results.

Please consult the product instructions on how to get the best results from your meter and what types of soil different plants require.
