

Product data sheet

215MM LOW RANGE WOOD WALL THERMOMETER

Brannan wood thermometers are manufactured using wood sourced from forests managed in a way that preserves biological diversity and benefits the lives of local people and workers. The forests are managed to strict environmental, social and economic standards. Packaging sourced from the same standard of forests.

This 215mm wood wall thermometer has a low temperature range, ideal for outdoor uses in cold climate conditions or for cold storage facilities.

Product features:

- Sustainable wood wall thermometers sourced from forests managed to strict environmental, social and economic standards
- Ethically sourced to protect the biological diversity and benefits of local people and workers
- Ethically sourced, fully recycleable packaging
- Ideally suited to full colour customer branding and design (MOQ apply)
- Suitable for use indoor or outdoor*
- Easy to read, Celsius scale with coloured zones
- Made in UK
